Bold Events

Sweden Trade Council (STC) is due to establish an office in Iran to help further develop economic relations between the two countries.

Iran has so far completed laying down 1,700 kilometers of the 2,650-km West Ethylene Pipeline project which is expected to become fully operational by late March 20 2017.

The Iranian and Turkish traders are determined to boost the volume of trade exchanges between the two countries to the level of \$30 billion.

The Lithuanian deputy energy minister has informed that the country has floating facilities to turn LNG into natural gas offshore and on their ships and is therefore interested in cooperation with Iran in the LNG sector within a technical and investment framework.

The visits by Germany's major firm managers and representatives to Iran to invest in the country's petrochemical industry have persuaded their Danish and Portuguese counterparts to seize the opportunity.

Iran has opened all the doors for cooperation with Indonesian state and private companies and they can join energy projects in areas such as natural gas, petroleum products, and petrochemicals as well as joint investments in refining and development of oilfields.

Iran has envisaged plans to extract at least 2 billion cubic feet of natural gas from phase 19 of the supergiant South Pars joint gas field in Persian Gulf waters.

Iran awarded its major contract to a German company for development of a petrochemical project in the city of Masjed Soleiman in the country's Southwest.

Pakistani Commerce Minister Khurram Dastgir Khan called for the expansion of mutual cooperation between Tehran and Islamabad in different areas.

Iranian oil vessels are soon to enter international markets in European waters as talks between National Iranian Tanker Company (NITC) and European firms are sewing up.
